Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-17,35-39, drawn to a method of making a segmented composition, classified in class 424, subclass 401.
- II. Claims 18-34, drawn to a method of making a composition, classified in class 424, subclass 401, 64.
- III. Claim 40, drawn to an injection molding apparatus for making a segmented composition, classified in class 424, subclass 5.

The inventions are distinct, each from the other because of the following reasons: Inventions I and III are related as apparatus and product made. The inventions in this relationship are distinct if either or both of the following can be shown: (1) that the apparatus as claimed is not an obvious apparatus for making the product and the apparatus can be used for making a different product or (2) that the product as claimed can be made by another and materially different apparatus (MPEP § 806.05(g)). In this case the apparatus can be used for making a composition which is not segmented.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Charles Ruggiero on March 8, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1615

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
